## ON CALL

# NEWSLETTER 4

These were very busy months for the project consortium. A partnership is finally approached the final phase of ON-CALL project!

The sanitary situation in Europe has considerably affected the activities of the ON-CALL project. The project has been extended until February 2021, so the partners could implement activities related to the project. Some partners had to perform piloting activities and multiplier events in online form, while some other partners were able to organize them in face-to-face form. Due to the pandemic, the final meeting initially planned in Belfast had virtual form.

WELCOME TO THE FOURTH  
NEWSLETTER OF THE  
ERASMUS+ **ON-CALL**  
PROJECT! **December, 2020**

## FINAL ACTIVITIES

In the last months the partners:

- Performed piloting of IO1 and IO2 in each partner country on local level (face-to-face and virtual form)
- Multiplier events in each partner country (face-to-face or virtual form)
- The final partner meeting organized online on 27<sup>th</sup> November
- Implemented activities related to dissemination of the project.

# REMINDER: WHAT IS ON- CALL ABOUT?

The ON-CALL PROJECT helps people who don't have access to health care or who are unable to understand health information to work with seniors from their host country and to develop the health literacy skills essential to allow them to make informed choices and decisions for a healthy life.

We aim to eliminate completely this disadvantage, by spreading knowledge on basic healthcare to people who had not had much chance in life to learn this valuable knowledge.

## ***See what we can do to help you!***

The ON-CALL project is coming to an end, but the resources developed will still be available for free on our website.

We would like to thank all of you for being with us and supporting us during all steps of this project. At the same time we kindly encourage you to stay in touch with your local ON-CALL partner in order to be informed about the similar initiatives in the future.
